RON'S REPORT

Hello again boys and girls. Here is a reminder that Dave thought should be mentioned. The 2014, 42nd annual two-day gun & antique show, hosted by us, HACS, is going to be held March 8-9, 2014 at Heritage Park, Chilliwack. As our costs for everything have increased, we will have to charge \$50 per table this year. More than half the tables are now rented. If you're thinking of booking tables, I suggest that now is probably the right time to call Al Amundson at 604.941.8489 for an application.

Maybe I've mentioned this before but, oh well. For one day shows we won't take reservations more than two months in advance. This does not apply to yearly table holders or two-day shows. This is to avoid a lot of extra bookkeeping and possible mistakes.

I've always thought of the September show as a slow one. The latest September show has made me rethink that theory. It was just as busy as all of the latest shows. To prove that point, I sold half the guns I took to the show! But then so did a lot of other folks sell guns. I know because I can see Tom bagging them as they leave. We all missed Art Garbo who missed the show due to health problems. Art, we are all wishing you the very best! Mike Gillespie dropped in for a look around. We don't see him too much now that he retired. Also attending is a young lad, coming with his dad; he is too shy to speak to me but always gives me a "high five". I'm so used to the crowd of visitors we attract now it's getting to seem normal to have over 200 people visiting us. I forgot to ask Dawn if we sold many 2014 memberships. Al announced it a couple of times. It was great to see Gord Bader attend the show. We don't see much of him now that he lives on "The Sunshine Coast". Oh, did I mention that I took four guns to this show? I had such a good time and I thought everyone who I talked to looked so well. It's refreshing to see everyone looking healthy. I had a bit of a concern about our October 20 show, with Salmon Arm running the same weekend. However, I didn't have to worry very long. We are nearly sold out at this time. Both November 16-17 and the October 20 show have only a few spaces left. If you are thinking about tables now is the time to check on table space. Call Dave at 604.880.4706 or call me at 604.522.3609. Maybe we can fix you up with a table.

I'm including some very disconcerting copy originating from the UN Disarmament Commission which is, in effect, another underworked, overpaid, overstaffed bureaucracy. You will notice as you read through the restricted report that it is filled with "Government Worker Logic". Remember this isn't free! It's some of our tax dollars that keep these over paid, under-brained geniuses in their overstaffed jobs!

On a similar subject, I've just heard more about the High River, Alberta RCMP break-ins. The last count says there were 1900 break-ins. The damage now runs into millions as some homes suffered up to \$4000 in damage. It includes doors, locks, door frames and glass. I haven't heard if all the firearms went back to the rightful owners. However I've seen several cases of what returned firearms look like after seizure by RCMP. Most are dented, gouged, some amount of rust and many bolts and magazines are missing! I think it's away past the time when we should have provincial police forces. It seems that there aren't laws that pertain to the RCMP. I certainly wouldn't want any of my grandsons to be a member of such an out of control organization. I'm really sick and tired of all of the negativity around guns and gun owners. Outside of gang wars here there are very few gun related crimes or accidents. Right? I've just learned that here in BC there are 28 deaths per month due to automobile accidents. Of course we've all heard that half are caused by distracted drivers on cell phones. Wouldn't it be nice to see the same passion put into a plan to decrease distracted driving? I'm certainly all for the idea. Are we ever to see such a common sense plan here in Canada? Our main news item recently involves the sense of entitlement in the Senate. Maybe Pamela Wallin and Mike Duffy should just be put in jail for a while. They would be more willing to pay back our tax dollars than I think, and maybe some of their peers would stop and think things over.

Okay, that's my rant for now. Don't forget the gun show at the CMEC Museum, September 29. George is doing a lot of advertising for this show and the November 30 show which is a Saturday and will be held in the Cloverdale Legion Hall. Call George for details at 604.841.0710.

I hope you boys and girls remember that the 2014 members' cards are in. I think Dawn issued some at the last show. I hope a few more will renew memberships at the next show so as to avoid a rush at the December 8 show. Dawn is rushed as it is. So be kind to her please.

Well boys and girls that fills the page once again. So till next time, be good to each other.

Cheers,
Ron

Disarmament Commission – Civilian Weapons Confiscation Study Group
New York, 29-31 July 2013

The issue of military grade weaponry in the hands of civilians looms ever larger in the face of the global implementation of 22 Agenda 21 by member nations. In particular, the United States of America has an estimated 500 million weapons in the hands of its civilian population. This is not just a static problem, it is a massive dynamic problem for the process of confiscation as there will be those who refuse to surrender their firearms.

The conclusion of discussions by the CWCSG led to the adoption of a proposed agenda to begin the process for introducing to member nations a framework by which they can begin codification of national laws to disarm civilians within their borders through a graduated process.

Within the discussion framework, we have identified several problem areas that must be addressed, they are:

1. Classification of military grade weapons to be made illegal for possession.
2. Creation of programs to provide reasonable compensation for voluntary surrender of said arms.
3. Codification of laws to begin the restricting and strict licensing of concealable firearms.
4. Codification of laws to begin the restricting and strict licensing of hunting grade firearms.
5. Codification of laws to restrict the sale of, and possession of ammunition and components to manufacture ammunition.
6. Finally, codification of laws to completely makes any and all firearms illegal to own, possess or use outside of military and law enforcement usage.
7. Creation of a United Nations Police Taskforce with the specific mission of assisting member nations with the collection of weaponry from civilian hands.

The CWCSG will submit its findings and final recommendations once we have created the codification framework for member nations for a full review by the Office of the Secretary General.

Above the date, notice that distribution is restricted.

Kick the UN out of the USA and stop sending them USA taxpayer dollars. They're useless and impotent and want to render the USA to the status of a third world country. You know that the person in the White House is behind all of this. Waiting for another mentally ill person to create another murderous incident of innocents to try and usurp the Constitution and to backdoor the US into some b.s. UN treaty.
