

## **H.A.C.S Newsletter – May 2022**

Here we go with our first Saturday Gun Show on May 21, 2022, after a 2 year plus interruption. If it's anything like our big show at Heritage Park last March, it will be outstanding. I hope to see you all there.

With municipalities and most provinces across the country jumping onto the Liberal handgun ban, all gun owners need to come together and work hard to protest, vote against this action and try to educate non gun owners that it isn't the law-abiding gun owner causing problems, it's the criminals. Banning handguns will do nothing to stop the smuggling of guns across our northern 8891 km undefended border and 3 oceans. The only thing a handgun ban will do is cost Canadians millions of dollars to recover legally owned property, make some anti-gunners happy, deny honest gun owners the enjoyment of their hobby and allow the thousands of gun smugglers on both sides of the border to make more money.

There are a great number of gun owners who do not own handguns and are not concerned with this ban because they think it won't affect them. They are wrong! Once handguns are banned the emboldened various governments will continue to seek bans on assault style rifles, hunting rifles and shotguns. So, it isn't just the federal Liberals and NDP.
